Form with fields for People living in home, Adults over 18, Disabled, Elderly, Children 5 to 18, Children under 5, Household members that are temporary, Single parent, Married, Widowed, Veteran, Native American, Do you own & live in this home?, Homeowner length of residency in Colorado Springs, Type of Home, Year Built, Central A/C, Window A/C, Swamp Cooler, None, Do you have Internet service?, Has Energy Resource Center previously weatherized this house?

3. COLORADO SPRINGS UTILITY INFORMATION REQUIRED & ATTACH A COPY OF A RECENT CSU BILL: check appropriate boxes

Form with checkboxes for CSU N. Gas, CSU Electric, CSU water and a field for Colorado Springs Utilities Account number #.

4. QUALIFY BY LOW-INCOME INCOME PROOF OR LEAP: Call ERC @ 591-0772 if you have any questions

Form with instructions for providing income proof or LEAP award letter, checkboxes for various types of income proof, fields for Yearly Income, Monthly Amount, Employer, and a checkbox for LEAP household.

ERC authorized agent, Date Approved, Verification, POV Level %, JOB #:

5. Client Authorization and Release: I understand that although all materials used by ERC comply with government regulations for toxicity and fire retardation, the possibility of certain individuals having an adverse reaction to some fumes or dust does exist, and if one of these materials is ingested, particularly by a child, there is a possibility of a negative reaction. I understand that it is my responsibility to inform ERC of any medical condition that could be aggravated by dust or fumes prior to insulation/weatherization. ERC cannot perform any of these services until all forms, including this agreement, are properly signed by the homeowner and returned to our office. In the event of any willful misrepresentation the signatory may be held liable for all costs involved, including legal costs. **I agree to permit representatives of Energy Resource Center (also known as ERC) and Colorado Springs Utilities to inspect work done on my property in order to assure quality, efficiency, and safety of work done. In addition, I will allow Colorado Springs Regional Building Department inspectors to check any work which requires a permit.**

I authorize the Energy Resource Center as Subcontractor for Colorado Springs Utilities to process my application for weatherization and energy efficient services. I certify that all information provided on this application to determine my eligibility is true and complete to the best of my knowledge and I am enclosing the necessary income proof needed in order to qualify for HEAP services. I will notify ERC if I move from the address listed on this application, or if the home goes up for sale. *(ERC cannot weatherize homes that are for sale!)*

Colorado Springs Utilities HEAP Efficiency Weatherization Application

PROPERTY OWNERS AUTHORIZATION TO WEATHERIZE

I certify that **I am the owner** of the property located at: _____

I hereby authorize Energy Resource Center and its contractors to enter the property to perform a computerized energy audit and blower door analysis test. Weatherization may include any or all of the following: insulation of attics, walls or subfloor areas, caulking & sealing of the structure. Cleaning & adjusting of combustion appliances to improve safety & efficiency. Low-flow toilets and showerheads may be installed to replace existing appliances and leaking faucets may be repaired if you are a CSU water customer. Refrigerators may be metered for efficiency. CO and smoke detectors may also be given per code & LED light bulbs.

(1) The owner releases ERC, its subcontractors, its Board of Directors and Colorado Springs Utilities from the responsibility for present or future damages incurred as a result of weakness of the property or mechanical defects of materials installed.

ERC has a one-year guarantee on any parts or materials installed.

(2) If the attic area has existing knob & tube wiring, ERC will not be able to insulate over the existing wiring. ERC personnel will contact our Electrical Subcontractor to do a service call to assess the wiring and give ERC an estimate for the repair work needed.

(3) Furnaces and hot water heaters will be inspected for safety. Unsafe conditions may require a replacement. Existing furnaces may be a candidate for efficiency furnace up-grade replacements upon inspection.

PROPERTY OWNERS INSULATION WAIVER: ERC strongly recommends installation of wall insulation, if needed. A refusal to allow sidewall insulation constitutes a refusal of all weatherization services. If wall insulation is needed, the insulators may drill into the exterior or interior wall of the property. Exterior wall drilling is the usual procedure. Exterior holes will be plugged, sealed & painted as close as possible to the existing paint. ERC cannot guarantee a perfect color match due to variations in fading and the color matching process. If interior holes must be drilled, small cracks may appear depending upon the condition & type of wall material. I understand that interior holes will be sealed & patched, providing the wall with a paintable surface but that patching may not cover these small cracks or match the original wall texture. Painting the interior patches is the responsibility of the homeowner and not ERC. ERC will clean up general debris caused by our work. **Be advised, however, that adding insulation is inherently dusty and it will create some dust that must be cleaned up by the homeowner.**

OVERALL WEATHERIZATION AGREEMENT: *I have read the above agreement & understand all the terms & conditions presented herein, & hereby grant permission to perform such weatherization measures as may be suited to this property under the standards established by the Colorado Energy Office Weatherization program and Colorado Springs Utilities.*

I Agree to the above

I swear or affirm under the penalty of the laws of the State of Colorado that:

I am a United States citizen I am a Permanent Resident of the U.S. I am lawfully present in U.S.

Homeowner signature: X _____

_____ Date

*****INCLUDE WITH THIS APPLICATION A COPY OF A COLORADO SPRINGS UTILITY BILL
COPY OF VALID COLORADO DRIVERS LICENSE, PASSPORT, OR MILITARY ID
MONTHLY INCOME PROOF OR COPY OF LEAP AWARD LETTER*****
